INDIVIDUAL BENEFIT IS HIS FIRST AIM

Gov.-Elect Hiram Johnson Will
Work for the People and
Not for Corporations

GIVES OUTLINE OF SOME
HOPED FOR LEGISLATION

Eulogizes Roosevelt As Man
Who Makes It Possible
to Fight Trusts

NEW YORK, Dec. 9.—Awaiting an interview with Col. Roosevelt, Governor-elect Hiram Johnson discussed his coming administration of California. He declared individual and not corporation benefit was his aim. He predicted the complete success of his policies and that other states would soon adopt them.

"We want legislation providing for the initiative and referendum and the recall," he said. "Also complete control of public service corporations and a comprehensive employers' liability act. We will give the people the recall privilege. If they don't like my administration, then they can oust me. Corporation control will soon be a thing of the past."

SAYS ROOSEVELT MAKES WAR
ON CORPORATIONS POSSIBLE
LE—TOO LONG HER

NEW YORK, Dec. 9.—Hiram Johnson met Col. Roosevelt today in the Outlook offices. When the conference was over, Governor-elect Johnson praised Roosevelt enthusiastically, saying:

"The Colonel is the most popular man in California today. It is men like him who make a battle against corporation control possible. When he comes to California next spring we will show him what we think of him." Johnson refused to tell the substance of his interview with Roosevelt.

MOORE ACQUITTED ON UNWRITTEN LAW OF MURDER CHARGE

VINCENNES, Ind., Dec. 9.—Menlo Moore, charged with the murder of Charles Gibson, whom he shot and killed on October 3, was acquitted today.

Moore killed Gibson, who was a millionaire, in a crowded railway station. He pleaded the unwritten law. Moore's wife, on the witness stand, testified that the shooting followed her confession to him of her relations with Gibson.

SECOND CRUISER ENTERS
SAN DIEGO INNER HARBOR

SAN DIEGO, Dec. 9.—For the second time in the history of San Diego, a modern warship entered the inner harbor yesterday, when the armored cruiser Pennsylvania steamed through the channel and dropped anchor off the Spreckels bunkers. She will remain inside long enough to have her guns "bore-sighted."

The Pennsylvania draws 28.7 feet of water, but she encountered no difficulty in negotiating the passage. Admiral Barry, by wireless, said tonight that the Maryland and West Virginia would probably enter the harbor Saturday.

HOMESTEADERS HAVE
RIGHTS OVER OIL MEN

BAKERSFIELD, Dec. 9.—Judge Mahon of the superior court, today decided that homesteaders on land subsequently jumped by mineral seekers, have prior rights. The discussion was given in the case of Martin vs. Deming, and is one affecting several sections of the richest oil lands.

SHE WILL SUICIDE RATHER THAN HANG

Hattie Le Blanc Declares She
Will Not Take Punishment
For Uncommitted Crime

CAMBRIDGE, Dec. 9.—Determined to let no opportunity pass to play on the public sympathy, the attorneys defending Hattie Le Blanc, aged seventeen, charged with the murder of Clarence Glover, introduced testimony today to tend to show the girl swore she would commit suicide if convicted. Mrs. Lillian Langley, the girl's sister, was the chief witness today.

"Hattie swore she would never go to prison or hang," the sister testified. "She said she would kill herself first. She told me she is innocent; that if unable to prove it, she would not submit to punishment for something she did not do."

BRYAN'S COMMONER WARNS DEMOCRATS

Says They Must Not Combine
With Wall Street Interest
They Sought to Defeat

LINCOLN, Neb., Dec. 9.—Protesting against the "stupid" policy of winning victory by retreat, Bryan's Commoner today warns the Democratic party against forming a combination with Wall Street.

"Democrats are being asked to do this and an ultimate party victory is promised. This promise is not new." The editorial then demands that Democrats fight their own battle for supremacy, ignoring the proffered Wall Street support. He declares acceptance after the congressional victories would be a surrender to the interests, the defeat of which was the object of that campaign.

FORTY-ONE STROVE FOR \$20,000 PRIZE

Aviators Stormed the English
Channel in English Built
Airships

DOVER, England, Dec. 9.—Forty-one entrants are preparing today to attempt a flight across the English channel to win the twenty thousand dollar prize offered by Baron de Forest to the first man crossing to France in an English built machine. Daylight today was set as the opening of the contest, and immense crowds gathered to see the start.

SAN PEDRO HARBOR MAY GET \$270,000 FROM U. S. CONGRESS

LOS ANGELES, Dec. 9.—Los Angeles harbor gets \$270,000 in the congressional appropriation for rivers and harbors, according to a telegram received in this city Wednesday from Congressman James McLachlan at Washington. The sum will be used to complete the harbor entrance up to and including the turning basin, which will have a depth of thirty feet. Channels 200 feet wide and twenty feet deep from the turning basin through the east and west basins will also be made out of the appropriation. The telegram follows:

"Los Angeles harbor gets \$270,000 in this bill to complete entrance up to and including turning basin to a depth of thirty feet, and also to complete channels from turning basin through east and west basin 200 feet wide and twenty feet deep."

"JAMES McLACHLAN."

DEAN JUDSON'S LEAP FROM
SECOND STORY WINDOW

Girl Students Escape in Night
Robes and Barefooted from
the Flames

LOS ANGELES, Dec. 9.—The building of the University of Southern California College of Fine Arts, which adjoined the dormitory, was destroyed by fire early this morning.

Dean William L. Judson was compelled to leap from the second story window of the dormitory. Mrs. Alta Anderson, matron, with eight women students, rushed from the building without saving their possessions.

The damage was \$21,200, including fifty paintings, worth \$6000, twenty-six of which belonged to Dean Judson.

The flames spread so rapidly that the girls were forced to run into the street barefooted and in their night robes. Following their escape they were taken in by hospitable neighbors. Among the young ladies were Olive Pester, Hazel Pester, Marguerite Vignes, Florence Sergeant, Mary Weaver, Ida Comer, Signe Hallquist and Clare Crowette.

Dean Judson announced that the college courses would continue today in a hall rented on Pasadena avenue, No. 64.

BIG SALE OF COTTON PUTS
\$25,000 INTO IMPERIAL

EL CENTRO, Cal., Dec. 9.—The Loftus Company today sold for themselves and others ten carloads of cotton of thirty-five bales each, a total of 350 bales, at \$13.90 f. o. b. El Centro. This single sale brings into the valley about \$25,000.

The sale was made to the California Cotton Mills Company of East Oakland, Cal., through their agent at this place, J. J. Chappell.

Judging from present indications, fully 50,000 acres will be planted to cotton another year.

The Cotton Seed Oil Mill Company hopes to have its plant ready for operations by the middle of January.

EXCLUSION ASKED BY FRUIT GROWERS

Resolution Against Alien Ownership of Land Aimed at
Jap Fruit Men

STOCKTON, Dec. 9.—The State Fruit Growers' convention will be closed tonight with an illustrated lecture on soil bacteria by Dr. C. B. Lipman, of the College of Agriculture of the University of California.

Dr. W. F. Snow, secretary of the State Board of Health lectured today on "Farm Sanitation." Several other papers were read. The convention adopted resolutions demanding legislation prohibiting alien owners of land. This aims at Japanese fruit growers.

The proposed Northern California citrus fair at Sacramento, in February, was endorsed. A resolution was adopted providing for the appointment by President Jeffrey of a committee of five members on legislation, to which all legislation asked by the fruit men be referred.

LONG BEACH SHAKEN BY
HALF DOZEN EARTH SHOCKS

LONG BEACH, Dec. 9.—A half dozen distinct earthquake shocks were felt here yesterday. People living in the east end of town evidently felt them more sharply than others, although the shocks were reported in the downtown district also. They were slight and of short duration. No damage was reported.

Small rugs make nice Christmas gifts. A very large selection at Chandler's.

DAVILLA WAS NEAR BEING MURDERED

Purported Peace Emissary
Tried Assassination—Mar-
tial Law in Honduras.

TEGUCIGALPA, Honduras, Dec. 9.—An attempt was made Tuesday to assassinate President Davilla. A man representing himself as a peace messenger from the Honduran insurgents obtained an interview with the president. He drew his revolver, but the president's guards disarmed him before he could fire.

The entire country is under martial law. The jails are filled with rebels. It is reported that the American cruiser Tacoma will reach Puerto Cortez tomorrow to protect American interests.

HUNDREDS KILLED IN TURKISH KERAK

Bedouins' Massacre Christians
and Turks Alike to Avenge
Execution of Convict

CONSTANTINOPLE, Dec. 9.—Hundreds of Christians and the Turkish garrison at Kerak were massacred today by Bedouins, according to a telegram from Joulism today. Kerak is now in the hands of Bedouins and desultory fighting is going on. Trouble arose because of the execution at the Garrison of a Bedouin convict.

Kerak has a population of eight thousand, six thousand of which are Moslems. So far as known Americans have no missions there, although there is a British station in the province.

TAFT TO NAME JUDGES SOON

Announcement of Supreme Jus-
tices to be Given Next
Week

WASHINGTON, Dec. 9.—The question of Supreme court appointments will be settled next week, according to information given out today. President Taft has decided to send his appointments to the Senate as near the first of the week as possible.

He has consulted the leading congressmen of both parties, but his decision is not believed to have yet been made. A full list from whom to select will be made up as follows:

Justice Swayne of New Jersey, Judge Lamar of Georgia, Judge Russell of Texas, Judge Hood Vandevanter of the United States eighth district circuit court, Judge Pollock of Kansas, Chief Justice Winslow of the Wisconsin Supreme court, Senator Sutherland of Utah, W. D. McHugh of Nebraska. Those in close touch with the situation predict that Justice Hughes will be made chief justice.

LOS ANGELES HAS OBSTACLES IN WAY OF CONSOLIDATION

LOS ANGELES, Dec. 9.—Members of the City and County Consolidated Commission have finally resolved into definite form the obstacles which stand in the way of the unification of Los Angeles city and surrounding territory into the city and county of Los Angeles. It is now admitted that unprecedented legislation must be enacted and the state constitution amended in order to achieve the desired end.

The two great obstacles with which the commission has to contend are: First—The provision of the constitution which states that "no new county shall be established, any line of which shall pass within five miles of the county seat of any county proposed to be divided."

Second—There is no legislative or constitutional provision for the consolidation under a city and county government of cities operating under freeholders' charters.

Both Pasadena and Long Beach have freeholders' charters; hence they could not enter the proposed consolidation without a change in the laws.

STATE HUMANE SOCIETY WILL
MEET IN 1912 AT RIVERSIDE
PASADENA, Dec. 8.—The next annual convention of the California State Humane Society will be held at Riverside in April, according to an announcement today by the president, Dr. E. L. Conger, who has returned from a meeting of the society's executive committee at San Francisco.

HILL ACTION DISMISSED GIVING COSTS

Stockholder's Suit Against the
Former Directors Falls by
the Wayside

HE FAILED TO FILE
AMENDED COMPLAINT

Los Angeles Man's Complaint
Was Never Taken Very
Seriously Here

The suit of Howard Hill of Los Angeles against the former directors of the Pacific Coast Soda Co. and others has fallen by the wayside. This morning a dismissal of the suit was ordered by Judge West insofar as the suit was concerned against E. B. Van Horne, James Irvine, R. T. Harris, A. J. Crookshank, the Irvine Co. and the Pacific Coast Soda Co. These defendants got judgment for costs of suit.

Hill is a stockholder in the soda company. About the time the company was endeavoring to wind up its affairs, Hill brought a suit against the promoters, former directors and others demanding judgment as a stockholder for \$53,528.84, including money spent in the development work of the company, the erection of the plant at Aliso and the plant at Soda Lake.

The suit was never taken very seriously here, since it was well known that its imputations were groundless. Attorneys Wycoff & Hanby of Los Angeles appeared for the plaintiffs and Scarborough & Forgy of Santa Ana appeared for the defendants against whom the action was dismissed today. On Oct. 6 Judge West sustained the demurrer of these defendants and gave the plaintiff ten days in which to file an amended complaint. The amended complaint was never filed.

ELECTION VOID BECAUSE
OF PECULIAR DEVICES

FRANKFORT, Ky., Dec. 9.—The Court of Appeals has set aside the local option election in Powell county because of the devices used on the ballots. The "drys" used a Bible and the "wets" a jug of whisky with a snake's head projecting. The court says the devices were calculated to excite prejudice.

JAP TO FIGHT FOR FREEDOM

Genkyo Mitsunaga Convicted
of Murder to Appeal From
Sentence

DENVER, Dec. 9.—An appeal from a sentence of life imprisonment imposed on Genkyo Mitsunaga, a Japanese convicted of the murder of Mrs. Katherine Wilson, will be taken up by the Japanese ambassador, according to Dr. A. L. Bennett, honorary Japanese consul here.

Bennett alleges the trial was unfair and partially was shown the prosecution. Bennett is in receipt of a long communication from the Japanese government commanding him to spare no effort to save Mitsunaga.

PROSECUTORS OF SEA
CAPTAIN TO RESIGN

LOS ANGELES, Dec. 9.—Following closely the abrupt resignation of A. C. Ridgway, U. S. inspector of immigration, and the dismissal of the charge brought by him against J. W. McAllister, captain of the bark Alden Besse, comes a report that Charles N. Williams, United States commissioner, and Frank Stewart, assistant United States attorney, both of whom were active in holding the sea captain for trial in the United States District Court, are to resign from the government service shortly.

CONVENTION NEARS CLOSE IN ARIZONA

Republicans to Oppose the Pro-
posed Constitution—Its
Fate Is Uncertain

PHOENIX, Dec. 9.—When the noon recess was taken today the constitutional convention had listened for the last time to the reading of about half of the proposed constitution. It was thought that by five o'clock the entire draft would pass its last reading and the roll could be taken.

It is certain ten of the eleven Republicans will disapprove, and two Democrats will oppose the constitution. The final fate of the document is a matter for debate.

The delegates sang "America" when the final day's session opened this morning.

REVOLUTION IS NOT OVER SAY REFUGEES

Fighting for Two Days at Par-
ral—Loyalists to Attack Re-
bel Controlled Towns

EL PASO, Dec. 9.—The citizens of Parral are fleeing to escape being caught between the Federal and insurgent troops that are gathering in that locality. Many arrived at El Paso this afternoon. They report sharp fighting for the last two days with severe losses on both sides.

They say the pacific reports sent out by Mexico are unfounded, and that the revolution is growing despite other reports. A large body of insurgents are marching toward Chihuahua and a similar body of loyalists are trying to intercept them. A decisive battle is expected Sunday.

The refugees say the Federal troops are preparing to attack Temosachio, Madera, Minaca, and Guerreria which are controlled by the rebels.

WOMAN JURY GIVES VERDICT TO WOMAN

Frisco Judge Put Mother's Plea
for Care of Child in Hands
of Twelve Women

SAN FRANCISCO, Dec. 9.—A jury of women heard a case today in Judge Graham's court, incidentally returning a verdict in favor of the plaintiff who was a woman.

Mrs. Mary A. Black, divorced two years ago from Owen Black, petitioned the court to be allowed the custody of both her children instead of one. The judge summoned a jury panel of women, appointed Mrs. Katherine Madden as forewoman, and ordered the attorneys to go ahead with the case.

CITRUS GROWERS PROTEST PRE-COOLING CHARGES

WASHINGTON, Dec. 9.—Some of the orange and lemon growers of California, accompanied by Levy Mayer, their general counsel, appeared before the Interstate Commerce Commission today in their complaint filed against more than 500 railroads to prevent the arbitrary collection of a charge of \$30 each on cars which are pre-cooled and pre-iced by the shippers. The complainants ship 50,000 cars of fruit annually.

Mayer argued that the Department of Agriculture for a number of years has experimented with the pre-cooling of fruit at the packing house for the purpose of finding a way to prevent decay in transit; that after years of experiment a system was evolved whereby this result was accomplished and that a number of California growers erected pre-cooling plants.

TACOMA'S HOPES NO RECOUNT BLASTED

TACOMA, Dec. 9.—The population of Tacoma as announced today by Chief Statistician Hunt, after a recount, is 83,743.

The original announcement was one thousand less, after 33,000 names had been deducted. The city sent a delegation to Washington and demanded a recount of the population, which fell short of the citizens' expectations.

States With Mexico

SAYS AZCONA'S ARREST IS

Friends of Prisoner Charge
Injustice—Declare He Will
be hot In Mexico

WASHINGTON, Dec. 9.—The arrest of Juan Sanchez Azcona, the Mexican, on the charge of obtaining money under false pretense, may result in a change in the American-Mexican treaty.

Congressman Wilson of Pennsylvania, who has taken up the investigation of the case, today said:

"I will present Azcona as a living example of a system that permits President Diaz to force the American government to imprison his political opponents. If I can not get action through the proper committee in the house I will take the matter up on the floor."

AZCONA WOULD BE SHOT
IF DEPORTED TO MEXICO

WASHINGTON, Dec. 9.—Friends of Juan Sanchez Azcona, arrested on the charge of obtaining money under false pretenses, yesterday renewed their attempts to secure a congressional investigation of his case. They claim Azcona would have been secretary of state of Mexico had Madero's revolution succeeded.

They allege that President Diaz used the American police as tools to secure his arrest on a trumped up charge. A demand for an official investigation is extended to the Department of Justice. Gustavo Madero, brother of the rebel leader, said:

"The charges were concocted on purpose to secure his removal to territory controlled by Diaz. It is a portion of the same plot that John Kenneth Turner exposed in 'Barbarous Mexico.' Diaz probably wired the Mexican embassy here, and the embassy took steps to secure Azcona's arrest on a spurious charge."

Friends declare the man will be stood against a wall and shot, if deported to Mexico.

BRIGGS MAY SEEK OFFICE

San Bernardino Sun Discusses
Situation in Regard to One
of Supervisorial Districts

George Briggs, whose home is at the corner of Broadway and Hickey street, Santa Ana, though his business and legal residence is at Needles, may be a supervisor of San Bernardino county. The San Bernardino Sun says:

A former Santa Ana man, well known here, appears to be in line for a place on the board of supervisors of San Bernardino county. George Briggs, now of Needles, is talked of as successor to Supervisor West of Needles, whose health is broken. Mr. Briggs was once owner of what is now known as the El Tovar ranch, near Olive, and owns a fine home in Santa Ana, on North Broadway, near the courthouse. His family lives in Santa Ana, where Mr. Briggs is now visiting. He has extensive interests in Needles, where he is said to be exceedingly popular. The Needles situation is as follows:

George Briggs of Needles, one of the strong business and political forces of the desert city, has been in town for two days, and while no statement is forthcoming from him, or public intimation of the purpose of his visit, there is reason to believe that it may not be remotely related to the recent rumors in connection with the condition of Supervisor West, whose illness has let loose a flood of rumors, and put petitions in circulation in Needles for the appointment of a possible successor.

From word that comes in from Needles, the probabilities are that action has been stirred there on the theory that if a vacancy should occur by resignation or otherwise, the Board of Supervisors would fill it, and that possibly the board might take action that would create the vacancy. Of course this is an error, as the board would have nothing whatever to do with either case. Except in the case of a resignation, the only manner in which such a vacancy could be made would be by court action. And if there should be a vacancy from any cause, resignation or otherwise, the appointment lies with the governor.

Mr. Briggs went to Santa Ana yesterday afternoon, and people with whom he was in conference here refused to state the purpose of his visit or to say whether it was in any way related to the supervisory situation.

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

Let's Be Practical This Year

A great hue and cry went up last summer for a "safe and sane Fourth." This winter we mean to preach the doctrine of a "safe and practical Christmas." Of course we do not mean to be so practical that you will give your six year old a fine library table or the baby a dining room rug. That would be nonsense. What we mean is that it is far better to give something useful, even though it is inexpensive, than to waste your money on bric-a-brac and nicknacks that must lie around the rest of the year to catch the dust.

Here are some practical gifts that will be appreciated.

Practical Gifts

HAND BAGS—We have a splendid line at close prices. Everything new, and everything in real leather. Especially fine "NO-SAG" bags in seal and walrus. These bags cannot sag in the middle. Prices up to \$15.00.

FANCY SCARFS—Knitted silk in colors, or in half silk mull. These make very pleasing remembrances. We are showing many in the new Persian effects.

DRAWN WORK—Real Japanese drawn work, in doilies, tray cloths, or table covers. Priced at 25c to \$3.00.

CLUNY DOILIES—Small cluny tumbler doilies come at only 25c; plate doilies at 35c and 50c; center pieces at \$2.25 up to \$6.00.

NAPKINS—If you are looking for something practical and serviceable, a dozen fine Irish napkins would cost you \$2.50 to \$6.00 per dozen.

LUNCH CLOTHS—We have a splendid assortment in handsome patterns and all sizes. Prices \$1.00 to \$2.50.

GUEST TOWELS—Made of fine figured huck, scalloped ends; priced at 25c and 50c each.

DAMASK TOWELS—A big stock bought especially for practical gift givers. Beautiful Irish linen towels at 50c to \$1.25 each.

TABLE LINEN—Is always most gladly received; our new fall stock is all in. Some handsome pattern cloths imported direct from Ireland, with napkins to match. This is something to think about.

INDIAN ROBES—From the famous "Pendleton Mills." They are handsome, heavy, all wool, large size at \$8.50 and \$10.00.

STEAMER RUGS—Also from the "Pendleton Mills," extra heavy, fine wool in handsome checked designs. Only \$10.00.

Give "Santy" a Tip For a Fur

One of the finest and handsomest presents you could make a woman or a young lady is a warm, cosy, stylish fur. Every woman has a secret desire that sometime she may own a fur, for besides its beauty, a fur gives so much comfort and warmth on a chilly morning or evening. It protects the neck just where the coat does not. Men can turn up their coat collars, but a woman would look queer if she did it; so she suffers in silence or tries to wrap up with a thin silk scarf. And a fur does not cost much when you investigate our prices. We can give you a handsome fur for six dollars, or less, or more, just according to your taste and pocketbook. Come in and look our line over.

LONG BEACH HORSESHOE FANS VISITED SANTA ANA

Local horseshoe fans have had a day filled with pleasure and surprises yesterday.

Members of the Long Beach Horseshoe Pitching Club to the number of eighteen came over in the morning to try conclusion with the local pitchers, who are "boys" who make their headquarters at the tent on Main street just south of the city hall.

The visitors had the better of the argument during the morning session, leading the locals by a total score of 320 to 150 and winning 13 out of the fifteen games played.

The locals in the afternoon tried to even up and gave the visitors the time of their horseshoe pitching careers.

The home "boys" really labored at a disadvantage, in that they adopted the distance and shoes the Long Beach pitchers have been accustomed to. Here the distance has been 42 feet and the weight of the shoes three pounds. The visitors have been accustomed to shoes weighing three pounds and a half and a distance of forty feet.

The Long Beach club brought down fourteen strong-armed pitchers. Their names are: Cody, McLavny, Eustick, Willer, Holloway, Smith, Hill, Truox, Poore, Downey, Young, West, Stultz and Elmore. The local pitchers are: Best McGreevey, Skiles, Rittner, Norton, Lang, Glover, Feltner, H. J. Feltner, Bicknese and Carothers.

The visitors were urged to accept the hospitality of the local club at dinner to-day, but refused on account of their large number. The locals insisted but the Long Beach party modestly yet steadfastly declined.

UNITED STATES ABLE TO RUSH WARSHIP BUILDING

WASHINGTON, Dec. 8.—With a striking array of cold figures, Chief Constructor R. M. Watt explodes the rather prevalent belief that the United States is behind the majority of great naval powers in the time of constructing warships.

In his annual report, he says: "With the system and method of

warship construction now in vogue in the United States, it is believed to be feasible for the United States to build first class battleships in as short a period of time as any other ship building country and actual experience seems to demonstrate that the rapidity of construction in the United States is greater than the average rate of construction in the principal foreign ship building countries. It is also worthy of note that this decreased time of construction has obtained concurrently with a decrease in the unit cost of construction."

The chief constructor declares the contrary belief which generally prevails has been owing to the fact that the basis of comparison between our own and foreign ship building operations are not identical.

It has been found impossible to construct on the Pacific Ocean the collier authorized by the act of 1909 within the limit cost of \$1,000,000 fixed by Congress, and an additional appropriation will be required if the ship is to be built.

EDUCATORS PROPOSE DOING AWAY WITH SCHOOL CENSUS

Think Plan for Regulating Number of
Teachers Should be on Average
Daily Attendance—Other
Changes Proposed

County Superintendent of Schools R. P. Mitchell, City Superintendent J. A. Cranston of Santa Ana, and Principal L. A. Durfee of Orange will go to Los Angeles tomorrow to attend the meeting of educators at the Polytechnic High School. The object of the meeting is to discuss proposed changes in state laws, the legislature to be asked to make the changes that will be decided upon.

The most important matter to be considered is a plan for securing a new basis of determining how many teachers each school district shall have. The chief feature of the plan is to do away with the annual school

census, which costs the state \$60,000 annually, and this county \$600. The census now determines the number of teachers. It is proposed to accept the daily average attendance as a basis.

Superintendent Mark Keppel of Los Angeles county proposes that a daily average attendance of forty or under give a district one teacher, an average of sixty being necessary for two teachers.

Superintendent Mitchell of this county is going to make a fight to have two teachers when an average of fifty is reached. His figures show that under Keppel's plan eleven dis-

tricts in this county would lose one teacher each, one district would gain one teacher, and Santa Ana would gain two. Under the Mitchell plan seven would be lost and four gained.

Among other legislation to be talked over is a teachers' retirement law, and the insurance of school buildings by the state. Some of the superintendents want to do away with the compulsory vaccination law. It is proposed to change the high school tuition law. At present the tuition of high school students who live in common school districts not in any high school district is paid by the county non-high school districts at large. It is proposed to change the law so that each common school district shall be taxed for the tuition of each student whose residence is in that district.

Christian Science an Active Force

One of the wonderful things about Christian Science is, that when one's thought becomes touched by it even a little he does not accept it as a passive theory, but it instantly assumes the character of a living, active force within him, impelling him irresistibly to action.

Now, a man possessed with this thought will, for instance, go to his business and find that he is not so much afraid of his fellow men as he once was.

So fear and worry are gradually eliminated and he feels proportionately more capable, more alert, less fatigued.

Is it not easy to see that this same idea can be brought into action in every relation of life?

(Taken from the Christian Science Monitor.)

You are cordially invited to hear Prof. Hering at the Opera House next Saturday evening, who will lecture on the subject of Christian Science.

REPRESENTATIVE MASSEY INTRODUCES LIQUOR LEGISLATION IN CONGRESS

WASHINGTON, Dec. 8.—The first bill introduced by Representative Massey, of Tennessee, who succeeded the late W. P. Brownlee, was a measure presented to-day making all intoxicating liquors transported into any State or Territory for delivery therein, or remaining for use therein, subject to the State or Territorial laws. The bill is designed to eliminate the exception of such liquor from the State police laws by reason of their introduction in original packages.

HIGH SCHOOL NOTES

Wednesday night the fifteen men who played in the regular scheduled football games, together with the manager and coach, enjoyed the "championship" banquet at the Dragon.

This banquet was promised early in the season provided the team landed the championship. That the boys won the honor, no one in Santa Ana doubts, and Wednesday evening the Dragon gave ample testimony of its faith. That the boys appreciate the attitude of the management of the Dragon as shown not only in the event of last night but in the interest taken in the team all through the season is putting it mildly. Here's nine "rahs" for the Dragon!

The appreciation the High School body feels toward the team for the honor it has brought the school is shown in the granting of sweaters to the members of the team, the manager and coach. Those who will receive the honors are: Capt. Ed. Reeves, Newcomer, Menges, Lutz, Lantz, Catland, Davies, Warren, W. Peek, Grouard, Reeves, W. Wotton, Manager Tedford and Coach Ratcliffe.

In determining the eligibility of members to the honor not only was football merit considered but also faithfulness in attendance at practices, class room standing and general attitude of the candidate in school.

Bids for the sweaters have been solicited and it is hoped they may be had by Christmas.

Duvall declares that "there has grown up on the outskirts of every reservation disreputable places where liquor of the most unwholesome and vile quality is dispensed, usually at exorbitant prices, from the direct effects of which the soldier commits many of the offenses which cause the trial by court-martial, and often bring about his physical collapse."

Gen. Duvall quotes the judge advocate of the Philippines as declaring the use by soldiers of native intoxicants, "usually procured in the absence of sane drinks, which cannot be had on the reservations" seem to be at the root of most courts-martial.

"The desire of a very large percentage of normal men for some sort of

stimulant is one which such men are sure to gratify," says Gen. Duvall.

This demand of the soldier previously was supplied by the canteen without harm to himself or to the service, in the opinion of the general.

GRASS VALLEY SOON TO BE FRUIT DISTRICT

GRASS VALLEY, Dec. 8.—That the resources of this district are not confined to mining, was demonstrated yesterday when a dozen or more fruit growers assembled at the depot to take care of their portion of a carload of trees, that had just arrived from an Oregon nursery.

One man had 800 trees consigned to

him, and he will start planting them at once. Another has an assortment of pear, apple, nut and prune trees which he will set out immediately. Many others have different varieties of fruit, running the gamut of walnut, peach, apple, pear and prune. At this rate the Grass Valley mining district will soon be a vast orchard making the ground produce a fortune from both above and below the surface.

PEACE THE NATION'S HOPE

Those were golden words spoken lately by David Starr Jordan to a Boston audience in which he said, "The sequel of war is decadence. Our Republic will endure so long as the human harvest is good; so long as the progress of peace and industry leaves for the future not the worst, but the best of each generation." War reverses all this; taking not the weak but the strong, thus constantly enervating the life of the nation, and by its destructiveness sapping its resources. The public conscience and judgment are slowly but surely reaching the conclusion that war, with all its pomp and circumstance is inexorable folly, and with the provision now afforded by the Hague Court for settling international disputes by arbitration is wholly unnecessary. A surer defense than multiplying battleships is to multiply friends among the nations by observing comity and justice in all intercourse with them.—Fullerton Tribune.

Glendale is making the fight of her life to secure the annexation of all the small towns in that vicinity and still hopes to win out in the end. There is strong opposition on the outside, however, especially from Tropic, where the people seem to have very serious doubts as to the wisdom of joining in an effort to build up another locality. The fight is already bitter and promises to grow warmer as it progresses, until it reaches a point where union would be the worst thing that could happen to the communities interested. Trouble enough is bound to grow out of the joining of friendly neighborhoods, but when they are previously wrought up to the fighting pitch and one side is forced in, the consolidation can hardly be of advantage to either.

Among the multitude of other matters to be presented for the consideration of Congress during the next four months will be a petition from the 80,000 members of the General Federation of Women's Clubs, asking that the scenic beauties of Niagara Falls be saved from destruction. This will be a part of the general movement to preserve the Falls from being devoted to commercialism and is expected to settle the matter, so far as the law-makers are concerned.

It will be remembered that a short time since the report that the Western Pacific was seeking an entrance into Southern California was vigorously denied by an important official. Now it is reaffirmed with every appearance of good faith. Our hopes will be with the last speaker until they are again blasted by another denial of the same degree of veracity.

Our Washington Letter

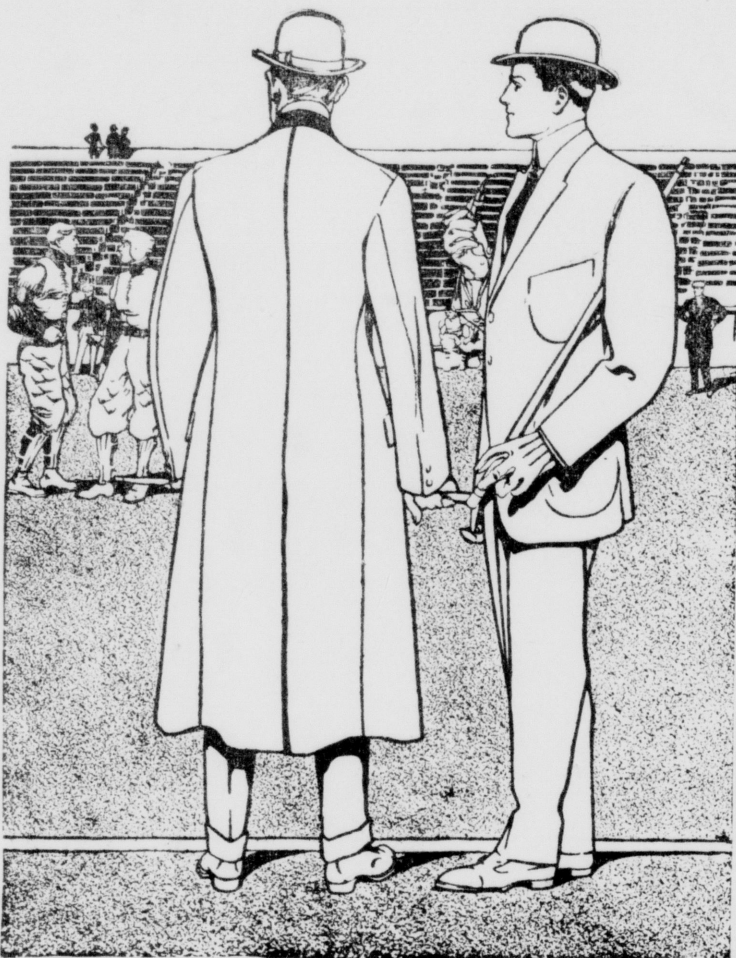

WASHINGTON, Dec. 9.—A tariff war was threatened between this country and Germany as a result of a tax imposed by the German Government upon exports of potash which works to invalidate contracts involving about \$27,000,000 entered into between American firms and German miners.

The State Department has received urgent appeals from Agricultural societies; every brood of politician; the fertilizer manufacturers and interested mercantile firms, to intervene for the protection of American consumers. When it is considered that about 2,000,000 farmers in this coun-

try are interested directly as consumers of potash and that the United States is practically dependent upon Germany for its supply, buying over one-half of the empire's total production, it is realized that the German Reichstag, in imposing an export tax upon this commodity which makes it impossible for American firms to handle it under the present contract price, has cut directly into the welfare of the American farmer.

The farmer has taken quick notice of this state of affairs with the result that every diplomatic pressure is being brought to bear by the State Department.

parment to effect an amiable settlement of the difficulty. Ambassador Hill aided by a representative of the Bureau of Trade Relations, H. H. Davis, is directly in touch with the German foreign office. If Germany fails to accede to the demand of the American diplomats, it is highly probable that the maximum tariff will be imposed upon every German importation into this country in retaliation for the action.

The export tax upon potash which was passed by the German Reichstag on May 10 last increases the price of potash in this country about seventy per cent. This tax was imposed after American buyers, taking advantage of a peculiar situation in the German market had entered into contracts for vast quantities of potash at a very favorable price.

For several years the protection and sale of potash in Germany was controlled by a syndicate which practically dictated the output and consequently, the price of potash. This syndicate expired in June, 1910. Friction between the heads of the various subsidiary firms of the syndicate made it impossible for them to agree upon terms for a re-establishment of the syndicate. This opened competition between the companies naturally forced potash down to a very low figure. Foreseeing that a future agreement might again place them at the mercy of the German syndicate, American buyers made large contracts with the several companies. Most of these contracts were for two years with the privilege of renewal for five years at the expiration of that time.

Just exactly what the American

buyers anticipated did happen. The German producers smothered their differences and the old syndicate was re-established. American manufacturers found themselves on top with long-time contracts to protect them.

The syndicate interests then turned their attention to squirming out of the American contracts. The law failed and they turned to the Reichstag. Several bills to force up the price and limit the production of potash were introduced each one aiming at the American Contracts.

Finally in June 1909 a bill was passed imposing the heavy export tax. The American manufacturers had already made contracts for the sale of their products at prices based upon the figures of their German contracts.

Large applications for burnt timber are being received at the Forest Service offices here and requests from lumbermen and contract loggers for information in regard to good logging chances are being received daily. In northern Idaho, and western Montana, the Forest Service is refusing to make sales of green timber, except where such action will work hardships on the mill men. This course is being taken on the theory that every stick of fire-killed timber utilized means a stick of green timber for future use.

The Forest Service is now announcing the largest sale of fire-damaged stock on record. The opportunities offered by the Service to the lumbermen include practically all kinds of logging chances,—from operations involving large capital which can handle a hundred million feet or more—down to the small saw-mill men or the tie-

makers who desire a hundred thousand and feet or less. The pulp men are also given bargain prices.

As a rule the stumpage is being set at about one-half the rate that would be asked for the timber if alive. Other fire-sale timber is being put on the market at prices which, the Government officials declare, will never be offered again.

The logging of the timber is believed to be practicable in most instances although the Forest Service officers realize that some of the stock will remain unsold because it is inaccessible.

It is estimated by Supervisor Weigle that there is approximately 900 million feet of accessible timber on the St. Joe watershed, Montana. Weigle declares that 60 per cent of this timber is excellent western white pine. The remainder is a mixture of spruce, larch, red fir, hemlock and cedar. The timber lies on five logging units, four of which contain more than 100,000,000 feet. Practically all of this timber can be logged profitably, although there will be some expense involved in constructing roads and improving streams for "driving". The average "drive" for the St. Joe timber will be less than 12 miles to the railroads.

There are numerous other bodies of fire-killed timber scattered throughout the region swept by the forest fires.

Shirt Waist Club

This club was entertained yesterday afternoon by Mrs. Charles Clayton at her home on Van Ness avenue, and with sewing on dainty Christmas work and pleasant chat the afternoon passed swiftly. Dainty refreshments closed one of the delightful afternoons which the club enjoys at its meetings.

The members of the club who were present were Mesdames E. K. Gearhart, Fred Chapman, Claude Congdon, W. H. Dwyer, Robert Dubois, Chas. Johnson, Frank Young. Others present as guests of the club were Mrs. W. H. McClain, Mrs. Clare T. Johnson and Mrs. Neil Brock.

Hen-Pecked Section of the Ebells

Husbands or members of the Ebells Travelers Section No. 1 surprised their wives last night by refusing or failing to show up at home for dinner. They banqueted at the Dragon, and during the courses regaled each other with the tales each had told the head of the house to allay suspicions as to the real purpose in deserting the family table. As a finale of the evening's fun, excuses were written for each man and signed by all those present, begging the wife to do her best to forgive him for his waywardness, assuring her that he had been in good company and behaved himself to the best of his ability. To square themselves with their wives, the husbands arranged for a dinner to be given the Travelers and their husbands with a theater party afterward. Those at the banquet last night thought it well by way of demonstrating their independence that they organize themselves into the Hen-Pecked Section of the Ebells.

Dinner Party

In honor of Miss Celia Krehbiel, who soon leaves for her home in Kansas on account of the failing health of her mother, Miss Faith Shaw last night gave a pretty three-course dinner at her home on West Fifth street. Holly berries with their accompanying glossy leaves were the decorations, suggesting the coming Christmas season. Covers were laid for the hostess, Miss Krehbiel, Miss Mame Havens and Miss Mary Ely. Dinner was served at 6 o'clock, and later the young ladies formed a theater party at the Bell.

Clover Club

The ladies of this club were the guests of Mrs. P. G. Beissel yesterday afternoon at her South Main street home. The rooms were prettily decorated in holly berries and autumn leaves and the ladies greatly admired the effect. Working over the dainty articles they were preparing for the coming Christmas tide, the ladies passed a delightful afternoon. Later the hostess served a two course luncheon in the dining

room, the color scheme being red and green. A goodly number of members were present, and Mrs. Will Merigold was a guest of the club.

Primary-Junior Union

The Primary-Junior Union met Thursday afternoon at 2 o'clock at the First Presbyterian church. There were fifteen members present. The Primary lesson was given by Mrs. Lutz, and the Junior lesson given by Mrs. F. M. Gulick. A discussion followed, in which plans were made for the coming year.

Private Kindergarten-Primary

Miss Anderson of 614 Bush street will open a private kindergarten school for such children as were unable to enter the public schools at the opening. She has had practical teaching experience and has recently had kindergarten training and teaching in the east. She will combine the primary and kindergarten work. Her advertisement appears elsewhere in the Register.

It was a source of gratification to observe the splendid audience which greeted Pepito Arriola at his return concert last evening. It was still more gratifying to note the enthusiasm with which he was received and the apparent appreciation and understanding of his performance.

It is my desire to lend every possible aid to bringing musical entertainments of a high order to Santa Ana. The general tone of our community will be elevated thereby. The esthetic side of our life will not be neglected. By extending a reputation as a city where the best in art and education is sought after and patronized we shall reap benefits incalculable. If we desire the best we shall attract it in every way.

Always yours to serve,

HOLIDAY GIFTS

For the Husband, Sweetheart, Father and Boy.

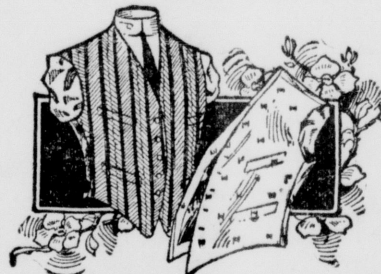

'Tis the easiest thing of all to buy gifts for men. You think not? Then try giving useful, practical gifts THIS Christmas season and see how you will be complimented upon your common sense. Man is a practical person—he wants useful, wearable articles—not knickknacks. He will get more satisfaction and pleasure out of one really beautiful tie at half a dollar than a ten-dollar toilet article. If you can't realize that, just ask him.

Here are articles every man needs. He probably knows just what size and color he would wish.

SMOKING JACKETS, SWEATERS, CAPS, LOUNGING ROBES, SHIRTS, SUIT CASES, CUFF BUTTONS, SWEATER COATS, HATS, UNDERWEAR, SCARF PINS.

Phoenix Mufflers, all colors and sizes, 50c and \$1.00. Reefers from \$1.00 to \$3.00.

A Fancy Vest will brighten up his suit. He needs one. He will still be wearing it next Christmas, and it will be appreciated each time it is worn. \$1.00, \$1.50, \$2.00 and \$2.50.

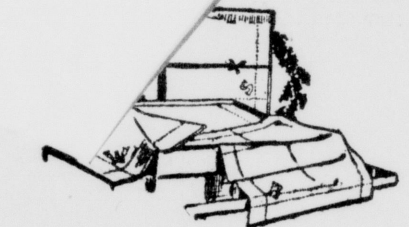

Show me the man who does not need Hosiery. Phoenix, absolutely pure silk hose, guaranteed to wear, 50c. Interwoven Lustre Hose, guaranteed wear, 25c. Four pairs Interwoven Hose in Xmas box, warranted wear, \$1 box. Two pairs Phoenix Pure Silk Hose in Xmas box, warranted wear, \$1 box.

You will see only Pure Silk Ties here and hundreds of them, 25c, 50c and \$1.00. Boxed Xmas Ties, all Silk, in beautiful colors, 50c, 75c and \$1.00.

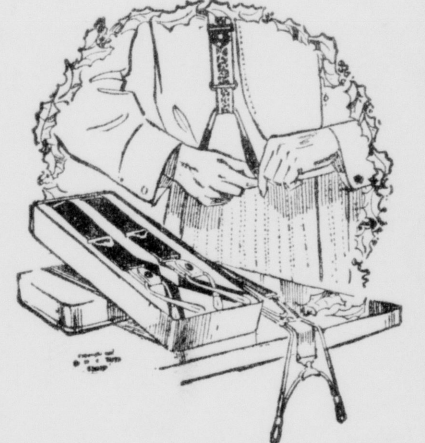

Press gloves for driving or auto. \$1.50 to \$4. Gloves \$2.

Handkerchiefs are always acceptable, as men never buy but one or two at a time, just as they need them. Pure Linen Handkerchiefs, initial, 25c. Japonette Handkerchiefs, initial 15c. Silk, Mercerized or Plain Linen. What more acceptable?

You never have waists enough. "He" hasn't half as many shirts. Buy "him" a Manhattan fine shirt; he will like it—\$1.50, \$2.00 \$2.50 and \$3.00 Others 50c to \$1.25.

Holiday Boxed Suspenders from 35c by easy stages to \$2. "President" Suspenders in boxes 50c. Tie and Suspenders to match (boxed) 75c and \$1.50. He wears suspenders, and needs a pair.

For the young man a new stylish Belt. A new narrow width belt, black or brown color, in handsome Xmas box, 75c.

A Complete Boys' and Children's Department

K&E Boys' Blouses for School Days

Dozens of Sweater Coats for boys in wide assortment of colors, \$1, \$1.50 and \$2.25.

Let Santa Claus bring him a K. & E. Blouse. He'll enjoy it as long as it lasts. 50c.

Drop a Suit down the chimney for the little fellow—its practical. \$3, \$3.50, \$4, \$5 and \$6.

Your money refunded for returned articles after Christmas. The gifts we sell are used all the time—that is why we say—GIVE USEFUL GIFTS.

STAND TRIAL FOR MURDER

Negro Suspected of Killing Former Santa Anan Faces a Serious Charge

LONG BEACH, Dec. 9.—Sam Apodaco, the Mexican now in jail serving a term for embezzlement, must stand trial on a charge of the murder of J. S. Ranous, for many years a resident of Santa Ana. A formal complaint was issued by the district attorney, and Apodaco will be arraigned as soon as his present sentence expires. Although the evidence against him is purely circumstantial, it is a strong chain which the accused will find hard to weaken. It has been built up link by link by the police, and looks convincing.

Ranous, who was a small rancher, disappeared from his home in the northeastern part of the city on the evening of September 15, and with him went a sum of money amounting to perhaps \$100. Apodaco, who worked for him, did not report the disappearance for ten days, during which time he collected sums of money belonging to Ranous, and for which he is now serving sentence.

It was found he had bought a revolver from a pawnbroker on September 15 and returned it next day with the story that it would not work. Examination showed that one chamber had been discharged. Search for the body of the missing man was carried on for a month and a great deal of territory was gone over without result. A son-in-law sold to a Jap a big manure pile on the place and in this body, much decomposed, was found. An autopsy showed the man had been clubbed to death, and probably shot also. Apodaco was suspicious. He has been satisfied.

MUCH INTEREST IN REVIVAL

Fishermen's Club Meeting at M. E. Church South Are Proving Successful

Greater and greater interest is being manifested in the revival meetings being held in the Methodist church, South, corner of Broadway and Church street, by the boys of the Fishermen's Club of Los Angeles.

The meetings are thoroughly interdenominational and are held under the auspices of the Young People's Christian Union.

The message last night was given by Earl Olin, who took up the "Three Great I Ams" in Paul's life. There were a number of decisions at the close of the meeting, and an after-meeting was held in which many testified to new blessings and experiences with Christ.

Tonight at 7 o'clock there will be a street meeting of the boys, on Main street near Fourth, followed by the regular 7:30 meeting in the church. Thomas Hannay, Jr., one of the Fishermen, will probably be the speaker tonight. He is called the "Cowboy Preacher," and is a living witness to the transforming power of the gospel of Christ. He was brought up in a millionaire's home, came to this country from Scotland and became a rancher and cow-puncher, later became a mining superintendent, which position he gave up after becoming a Christian, to go upon the Los Angeles aqueduct and preach the gospel.

While the meetings are especially for young people, all are invited to attend.

Bible study classes are held each afternoon at 3:30 o'clock, which are very helpful and are increasing in interest and attendance each day.

U. S. TREASURER MC'VEAGH IS FOR CURRENCY REFORM AND THE ABOLITION OF RED TAPE

WASHINGTON, Dec. 8.—Currency reform; extension of the scope of the national banking laws, in the event of no immediate general changes in the monetary system; civil service retirements, a customs service free from "practical" politics; businesslike methods in the daily transactions of the government and a general abolition of red tape wherever it clogs the wheels of the government business, are among the recommendations contained in the annual report of Franklin MacVeagh, secretary of the treasury, presented to Congress today.

The expenses of government in the fiscal year 1912, for which this session of Congress is asked to appropriate, are estimated at \$630,494,013.12. The estimated expenditures of the Panama Canal are given as \$56,920,847.69, making a total of \$687,414,860.81.

The estimates, if carried out, represent net savings of about \$13,000,000 in the executive departments, as compared with the appropriations for the current fiscal year.

Receipts for 1912, Secretary MacVeagh estimates, will be \$680,000,000, which would leave an ordinary surplus of a round \$50,000,000. If the treasury should continue to pay for the Panama Canal out of the cash drawer as at present, such a surplus would be turned to a deficit of \$7,414,860.81.

Secretary MacVeagh expresses the hope that the monetary question will come into Congress detached from sectional or political considerations.

"Our system can fairly be called a panic breeding system," he says, "whereas every other great national banking and currency system is panic preventing. As long as we continue under our present system, we are liable to panics and the devastations of panics reach Republicans and Democrats and all parts of the country alike. Panics are no longer necessary and no longer respectable. It is for the government to say whether we shall have panics in the future or not. It is a mere matter of choice.

"We have no system of reserves. Our banking system destroys them. It concentrates in New York what are pretended to be reserves and then forces the New York banks to lend and abolish them. Our system, instead of building up a reserve, destroys it as fast as it inclines to accumulate."

In connection with his criticism of the money system, one of the secretary's most important recommendations concerns future issues of Panama bonds, of which \$290,000,000 were authorized by the tariff act.

The secretary renews the recommendations made last year for legislation to tax the new bonds at 1½ per cent if used by national banks for circulation, and intimates, as was announced in news dispatches a few days ago, that it might be more preferable to issue the new securities for investment purposes only at a rate of 3 per cent.

As a check against the use of bonds as the basis for a further inflation of the national bank currency, he suggests that a circulation tax of 2 per cent would have the effect of making them unprofitable for banks to use for such purpose and at the same time would make them attractive to

investors without injuring the 2 per cent bonds, of which more than \$705,000,000 are outstanding.

Another means of accomplishing the same end, the secretary suggests, would be for Congress to authorize an issue of \$50,000,000 or \$100,000,000 of the bonds at 3 per cent without the circulation provision. If there is no prospect of immediate change in the monetary system, the secretary thinks the American national banking system should be developed to perform an international function.

"There is a clear need of banking facilities in foreign countries where there is American commerce," he says. "We shall never be a full-fledged commercial nation unless we have merchant ships of our own and foreign banks of our own."

"We should have banks at all ports that are important to our commerce."

The treasury's relations with the business communities are unbusinesslike, artificial and burdensome, the secretary declares, and he recommends legislation to permit the payment of revenue to the government by certified check, guarding the government against loss.

The recommendation that the treasury be authorized to issue gold certificates against gold bullion and foreign gold coin, is renewed.

Reviving the discovery of frauds and the subsequent reorganization of the customs service, the secretary urges appropriations for rewards for those who aid the government.

The rehabilitation of the customs service at New York has been marked, he says, by a decided elimination of spoils, influences and "practical politics."

"American travelers are more and more realizing the indefensibility of smuggling, its rank dishonesty and bad example and influence," says the report.

Recommending a study of the classified system of employees, the secretary declares that a civil service retirement is absolutely the requisite of a satisfactory system.

The contributory system of retiring allowances, the secretary recommends as the only one which has a chance of adoption, and best for the men and women of the service. He urges their friends to concentrate upon that movement.

A complete state of efficiency in government departments, he says, is impossible without some way of retiring clerks in a just and humane manner.

Secretary MacVeagh strongly recommends that all non-political offices be included in the classified service. Assistant appraisers of customs should be detached from politics for the efficiency of the service, he says. The secretary pays a high tribute to the men of the life saving service, and urges some form of retirement for them.

As the economies of administration which have been injected in the treasury department are reviewed, the secretary pauses to take notice of a statement made by a United States senator that the business of the government could be conducted with a saving of \$300,000,000 a year.

Secretary MacVeagh says: "The popular impression as to the extent of possible economies in the executive

Paving Gang Has Gone to Pomona, to Return for Church Street

The Fairchild-Gilmore-Wilton Co. on Thursday moved its paving gang from Santa Ana to Pomona.

The asphalt pavers have been at work here for several weeks. During their stay they laid pavement on Broadway from Fifth to Hickey, a distance of two city blocks, on West Fourth from Barton to Baker, six

blocks, on Sixth from Broadway to Main, two blocks, and on East Fifth from Spurgeon to French, one block. Church street from Broadway to Main, two blocks, is nearly all signed for, and the pavers will return to do that work when curbs are in. The company's plant here will be idle until that time.

TO PROCEED AGAINST IT

The Gilmacher Estate Has Not Closed Basement Entrance on West Fourth Street

The movement of the City Trustees to close basement entrances and do away with railings that take up sidewalk space has resulted in compliance with the request by the First National Bank and the Rossmore block. The Gilmacher estate, owning a block on West Fourth street, has not complied with the request to make the change, and as a consequence proceedings will be begun soon against the estate. The First National Bank closed the opening with sheet steel and removed the railing. The Rossmore has not finished its work.

LAPIQUE IN NEW OUTBREAK

Jean Pierre Arrogue and John Lapique, plaintiffs, versus Baptiste Moullet, Jean Portie and Marie Portie, defendants, is the title of a complaint filed in the county clerk's office today, marking the most recent outbreak of John Lapique.

About two years ago he was badly defeated in a contest in the superior court here, and made a big hullabaloo about disbarring several local attorneys. Los Angeles courts have had to deal with him in connection with various unsavory matters.

The complaint filed today in many respects is a marvel of crudeness. The complaint filed today asks \$5000 because of an alleged violation of an alleged verbal lease, and charges that Moullet has misinformed Portie and his wife, that he has told Portie that since he drinks beer and wine and is married he cannot enter into a contract. Furthermore, since Moullet has been a farmer for twenty-five years at Buena Park he therefore knows little or nothing about state law.

He has had pending for several years a handsome offer to do his wolf catching stunt for the edification of the public.

MUTILATED FINGERS CAUSE CONVICTION OF FIREBUG

CALIFORNIA, Mo., Dec. 8.—Two badly mutilated fingers, found in the ruins of a burned store at Tipton, Mo., nine months ago, caused the conviction of Gustav F. Steinkrause in the Circuit court here yesterday on a charge of arson. He was sentenced to serve two years in the penitentiary. In March last, a store conducted by Steinkrause and David Greer, was burned. Suspicion that the fire was of incendiary origin was not aroused until detectives employed by an insurance company found two mutilated fingers in the ruins.

An investigation followed and it was learned that on the night of the fire Greer had been injured and lost two fingers.

The arrest of the two men followed. Greer also faces a charge of arson.

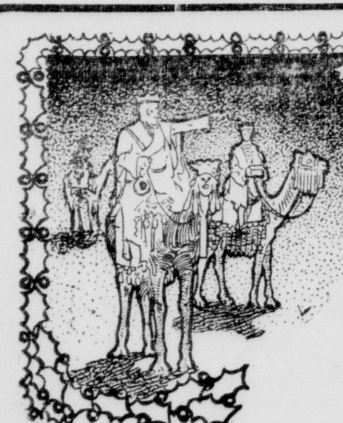

BLACK HANDERS EXPLODE BOMB IN NEW YORK

NEW YORK, Dec. 8.—Residents of 50 blocks of east side tenements, were awakened early to-day by an explosion which shook floors and rattled windows with the violence of an earthquake. The explosion was on 45th street, and caused intense excitement for a time. A dynamite bomb had been exploded in the vestibule of an Italian apartment house. No one was injured. The police think it was another blackhand affair.

Sailors' Bell-Shaped Trousers
Sailors' trousers are probably the strangest that are to be found in use by any class of men in the world. The gradual increase in size between knee and ankle produces a strange flaring-out effect that seems inexplicable; yet there is a very good reason for the apparently superfluous cloth that flaps about the shoe with every step.

In the old days when many harbors were unapproachable by large vessels, goods had to be transferred to small boats driven ashore by the sturdy arms of the ship's crew. The beaches upon which they landed were often shallow, and it became necessary for the sailor to step into the water and drag the boat up on the shore; their trousers became very wet indeed as a result. Close-fitting trousers, after drying, were apt to shrink and impede the free movements of the wearer. Moreover in their wet state they clung to the limbs in a very clammy manner.

IN FAVOR OF ANNEXATION

Anaheim Gazette Discusses the
Proposed Plan of Taking in
Strip of Fine Country

Anaheim Gazette. If Los Angeles shall succeed in organizing itself into a city and county government, as now seems probable, Orange should be quick to take advantage of the friendly feeling existing in the sequestered district to being included in this county. Whether the southern line of the consolidated county be placed at New or Old San Gabriel river, it is certain that a large and populous territory could be added to this county. If the line be placed at New San Gabriel river, there will be in the separated strip the cities of Long Beach, Whittier, Norwalk, Artesia, La Mirada and other localities, having a population of probably 35,000, and assessable wealth of about \$25,000,000. This would double the population of Orange, and place us, in respect to assessed valuation, probably in the ninth or tenth class, whereas we are now fifteenth—a by no means inconspicuous position for the smallest county territory in Southern California.

The added territory would entitle us to increased representation in the public affairs of the state, and would give us added strength in the legislature. We should have one state senator and probably three assemblymen. We should have larger delegations in state and district conventions, and become the dominant figure in the new congressional district. From every point of view the annexation of this very desirable territory is one that pleases. Long Beach and Whittier have already gone on record as favoring this step, and the entire territory will strenuously oppose inclusion in the proposed new county of San Antonio. Let Orange meet these people in friendly spirit, and let us by no means take such steps as might tend to change their present very friendly feeling toward us.

We are mindful of the fact that there exists in some quarters a querulous notion that Long Beach desires admission in order to gain for itself the county seat of the enlarged county, and that Santa Ana might be in danger of losing that advantage, but we see little cause for fear upon this score. The present county would be practically a unit in support of retaining the county seat at Santa Ana, in the improbable event of such a campaign arising. Long Beach by its isolation from other portions of the enlarged county would be in no advantageous position in relation thereto, and could hope for little if any assistance from centers of population not contiguous to the immediate environment. No affirmative vote could be secured for bonds with which to construct new county buildings, and as for Long Beach attempting to finance the campaign by local subscription, the amount of money necessary would be too large to be thought of for an instant. Grounds for a courthouse and jail, as well as other public buildings, and structures adequate to the needs of the enlarged county, could not be purchased short of a quarter of a million, and it is doubtful if even this large outlay would secure affirmation of the change on the part of the voters.

Yet we believe there exists no such disposition on the part of Long Beach, and it is to be regretted that this discussion has appeared. Long Beach opposes being included in the consolidated city and county government, it makes no reference to erecting itself into a county government with the other sequestered territory, and it has in good faith, we think, offered to join issues with this county. Let the territory come in.

Should the dividing line be put at Old San Gabriel river, there will be yet larger territory to annex, while on the other hand there might exist more probability that a new county might be formed to include all the territory set apart, or as much of it as Pomona might care to release. At all events let us assume a friendly attitude to our friends and if there exists any possibility of including them in Orange county, by all means let them come in.

A LITTLE TALK TO HOLIDAY BUYERS

The holiday season is trying at best. The difficulty of finding precisely the right things at suitable prices is a real difficulty that cannot be entirely removed. But we are sure the difficulty can be and often is increased by two errors. First, by not inspecting holiday goods early enough; second, by not seeking them in the right place. By carefully looking at goods while stocks are complete you get ideas and impressions which will make the final choosing easy.

By seeking in the right place you get not only the ideas, but reduce cost to the lowest figures.

We have a somewhat definite idea that our store is the right place to find what you want and to save money this season. We can assure you that we gave the selection of holiday goods long and careful thought. We kept quality in mind; we sought novelty as well, and we used our utmost endeavors in securing the lowest possible prices. You will soon have a bewildering array of holiday arguments thrust at you and we wish to impress you now with these few simple facts:

That we have exercised our years of experience in holiday buying for your benefit.

That our goods are worthy and that we have a lot of them.

That we feel we can be of actual help to you.

That we want you to come and see the goods as early and as often as you can.

Gifts that Will Please

You will be twice as happy when you give a present that is appreciated, and you will have no trouble to select such a one at our store. Come soon and look over our stock, and you will be sure to find that which will please you and give happiness to others.

LOVING GRANDFATHER GIVES LIFE AS A HOSTAGE TO SANTA CLAUS

ST. LOUIS, Dec. 8.—Bending over his work in the light of a coal oil lamp, John Huesner, 51 years old, sang as he toiled in a labor of love. Although he had put in a full day at his baker's trade, he was sitting up

far into the night to make a doll hammock as a Christmas gift for 5-years-old Irma Hanneman, who called him grandpa.

When the hands of the clock pointed to 11 last night, Huesner ceased singing and stopped his work with a sigh.

The twine with which he was weaving the hammock had given out. He

must get more.

Taking off his slippers and putting on his shoes, he went down the outer stairs leading from his home. Down at the corner a grocery store was still open, and there he purchased another ball of twine.

He returned to his home. As he entered, a little ball of snow had formed on his shoe. As he reached

the top step of the stairway the snow caused him to slip. He fell back and plunged headlong down the steps. His neck was broken and he died immediately.

The Canadian Pacific's Savage oil well is down 1010 feet and has just gone through 37 feet of good oil sand.

The Syndicate oil well is showing a little oil. It is at a depth of 4000 feet.

The Santa Fe is operating nine strings of tools in this part of the Fullerton field.

The Warner No. 10 is down 1400 feet, which makes a depth of 440 feet added to the original well, in addition to which the Canadian Pacific re-drilled the old hole. As yet no new stratum has been opened and the well will be continued to a greater depth. The rig has just been placed for No. 11 on the Warner, now the Canadian Pacific property.

Blanche Walsh at Grand Friday Evening, Dec. 9th

Today there is no contestant on the American stage to dispute the supremacy of Blanche Walsh, who appears at the Grand Opera House to-night, Friday. The long list of characters drawn by her have touched every chord; if her careful teachers of early days had the choosing no better list of impersonations could have been grouped for her self improvement. The somber qualities of Tolstol's "Kreutzer Sonata" and of "The Resurrection" are a long step from the brightness of Lady Teazle in "The School for Scandal" and "Tribby." In the Sardou plays, "Fedora," "La Tosca" and "Cleopatra," Miss Walsh braved comparison with the "divine" Sara Bernhardt in the picturing of stage figures of wild and tumultuous passions which must be drawn with only the suggestion of

the feeling within to enhance the coming climax of later outburst. No better school could a young actress have had to obtain the "repose" so much sought and so rarely gained by he who would prove himself a star. It has been the ability of Blanche Walsh to make the lighter moments of her many roles quite as effective as those more dramatic that has marked her as the leading actress of today quite as much as the personality to transmit the troubled workings of a mind torn by despair and anguish to an audience with hardly a gesture or a word.

With her, Hamlet's advice to the players went not unheeded, never is the "passion" torn to tatters, and therefore always it comes with vivid impressiveness when the white blaze of climatic power bursts forth.

INFORMATION OF SCHOOLS

State Superintendent Hyatt's Report Has Much of Interest to Educators

State Superintendent Edward Hyatt's report furnishes information of value to educators, and of interest to all, as to the educational interests of California, their growth in ten years, teachers employed, children, native and foreign born, etc. Following are the salient points of his report:

In a review of the school statistics for the ten years comprised in the period 1900-1910 there are many surprising evidences of great growth in the educational part of the state's development. In attendance, in the number of teachers, in the amounts expended for the maintenance of the various departments, the figures show increases ranging from 25 to 100 per cent and greater. The most remarkable increases are to be found in the high schools.

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, hemorrhagic, catarrhal, bronchitis, and chronic coughs, and, when taken with honey, it is a most effective remedy in acute coughs. It is in the lingering, hanging coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best purgatives known. In the present time, its action upon enfeebled, disordered stomachs, especially if there is ulceration of the gastric mucous membrane, is most efficient. Glycerine will relieve many cases of pericarditis and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood, curing blotches, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

In the last decade the number of teachers in the elementary schools increased from 7119 to 9658, a gain of more than 2500, or 36 per cent. While the number of women teachers increased 45 per cent, there has been a falling off of 16 per cent in the number of male teachers. Ten years ago the roll call of men in the schools showed 1101 at work. The number at the end of the school year 1909-1910 was less than 1000—920 to be exact.

In the high schools the number of men increased 160 per cent, and the number of women 350 per cent. The total number of teachers in the high schools has advanced from 486 to 1171, which is more than two and one-half times the number employed ten years ago. In the normal schools the number of teachers was increased from 101 to 133.

One of the remarkable showings of the census statistics is that the number of Mongolian children enumerated in the census has increased 43 per cent, as compared with 27 per cent, the increase in the number of white children. Ten years ago there were 2815 Mongolian children. The census of 1910 showed 4048 Chinese and Japanese children in the state—nearly double the former number. The gain in the number of census children, which in 1900 was 361,153, is nearly 100,000, or more than 27 per cent.

A large gain in the number of children attending private schools is also shown. The per cent of increase is 41. While the number of native born children increased 31 per cent, the increase in foreign born children is 153 per cent, indicating in a degree the immigration to this state. The number of children that attended no school at all is also on the increase. The rate of increase is 18 per cent. The 1909 census showed that there were 83,795 children who had not been enrolled in any school at any time during the year. Of course a large number of these children are between five and six years of age, and are required to be enumerated on the census, but who cannot, according to law, be admitted to school until they are six years of age.

The number of children enrolled in the elementary schools last year was nearly one-third more than the number enrolled ten years ago. It was 329,276 as compared with 257,557. The gain in the enrollment of the high schools is much higher, showing that more than two and one-fifth as many students were on the rolls of the high schools last year than ten years ago. The normal schools show an increase of 282, or 9 per cent, in their enrollment.

In average daily attendance, which means the average number of boys and girls who attend school throughout the year, the elementary schools increased 36 per cent; that is, from 188,420 to 255,851. The high schools show a gain of 244 per cent; that is, from 8975 to 21,904.

In the elementary schools the expenditures and the valuation of school property have more than doubled. In the high schools the expenditures for their maintenance are now more than four and one-half times as much as they were ten years ago, and the valuation of school property is more than three and one-half times what it was then.

CORONER'S JURY AGREE THAT STEPHEN MORI COMMITTED MURDER

BURLINGAME, Dec. 8.—That William Harvey Fitzgerald, San Francisco barber, came to his death from a gunshot fired by Stephen Mori, with intent to kill, was the verdict of the coroner's jury to-day. Last Monday a week, Fitzgerald was shot by Mori at Brighton Beach on property that belongs to the Nora Sharp estate, which employs Mori as watchman to keep trespassers off.

One witness said Fitzgerald, who was returning from a hunting trip, had reached for his own gun before he was shot by Mori.

HUSBAND AND WIFE INTENT ON DIVORCE GO TO SAME LAWYER

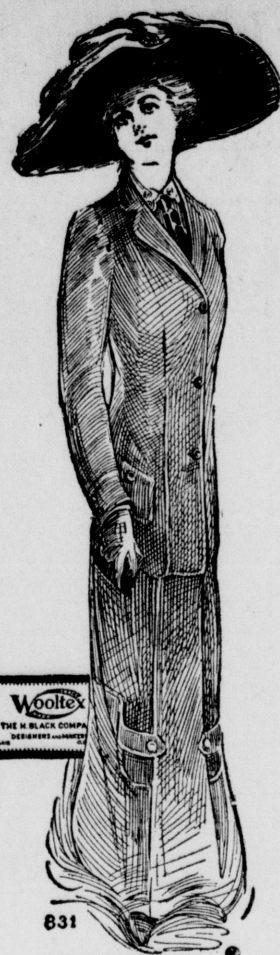

OAKLAND, Dec. 8.—Husband and wife, each seeking to begin divorce proceedings without the knowledge of the other, acted an excellent comic opera scene when they came to the office of the same attorney at the same time yesterday.

The attorney, Harry L. Pulcifer, of this city, found the two quarrelling. He intervened, and soon had induced them to make another effort to live happily together.

The husband threw \$25 on the table to pay for the lawyer's services.

"It's a queer world," said Pulcifer afterward, "people will pay \$100 to be separated, but only \$25 to be brought together."

POST OFFICE GROWING FAST

Increase of \$415 in Past Five
Months Over Same Months
of Year Before

Orange Post: The bidder for the location of the new postoffice will have to provide a spacious room to accommodate the growth of the office for the next ten years, if present increasing business is an index. Postmaster Edwards gave us the following figures of receipts, for the past five months, and for the corresponding months of last year:

Month	1909	1910
July	\$879.83	\$878.29
August	541.54	706.22
September	736.37	670.40
October	838.08	1095.42
November	772.12	831.70

\$3,766.94 \$4,181.94

This shows an increase of \$415.00 in the past five months over last year of same period. The fiscal year ends June 30, 1911, and with a gain of this amount the first five months, the \$10,000 mark will be easily reached a second time. Then comes free delivery. Horace M. Hillyard, who was substitute for Miss Fernald while she was on her Eastern trip, has been added to the force for December and January. This gives Mr. Edwards a working force of five, including himself. Last year during the holidays with one less in the office, it required about 14 hours a day to handle the mail, but with another experienced clerk the work will go smoothly along and the holiday rush will not be so strenuous as heretofore.

A. J. Pinkley, an engineer of a stationery engine, employed on the bridge work between Anaheim and Orange, was severely burned on the face last Thursday by an explosion of oil. Dr. Ida B. Parker was called to the camp to dress the man's injuries. Earl Columbia on the same day had his ankle and foot badly sprained and bruised while working on the same bridge. A heavy bridge timber, which he was helping to unload, fell upon his foot. His injuries were severe and painful but no bones were broken.

Messrs. Marshall Northercross, W. A. Dyer, Charles Clough and J. V. Sutton went on a camping trip to Limestone canyon on Wednesday of last week, returning the next day.

Cottolene

**Makes
Healthful and
Delicious Pastry**

Food cooked with hog lards and compounds is so thickly coated with grease as to give the gastric juices little chance to assimilate and digest it. *Cottolene* contains no hog fat. It does not coat the food with grease, and food cooked with it is easily digested.

From the standpoint of health there is no comparison between food cooked with *Cottolene* and food cooked with lard. Lard is just hog fat—*Cottolene* is a vegetable product of Nature.

Cottolene makes food which any stomach can digest, and builds up the tissues of the body.

THE KANSAS TIN SHOP

Has nothing new to offer the Christmas buyers, but we have lots of things that will do more good than all the "Jimkraks" that are usually bought on such occasions. A Pocket Knife for the boy (or the old man) and a pair of scissors for the girl or her mother will probably be more acceptable than any other thing.

Then to help out on the high cost of living (or the cost of living high) there is nothing better than a Meat Chopper, and it saves lots of chin work.

A wheelbarrow would not be out of order at any time, and for a Christmas present it might be somewhat of a surprise.

There are many other things that we would like to sell about this time (or at any other time), and then we would buy more and keep the stock complete.

We have a large stock of Granite Iron Ware and a very good example of that is white inside and blue outside.

W. R. Cubbon has put a bill in to the county for \$130, the amount of damage done his automobile in a wreck on 4th county road at the county line northwest of Anaheim. While returning to Santa Ana from the Santa Monica automobile races, Cubbon's automobile struck an iron post that is stuck in the middle of

the road and which marks the line between Orange and Los Angeles counties. Cubbon has learned that the post was placed in the road by Orange county, originally, at the time that Orange county became a county.

WATER BOARD AT ANAHEIM

Irrigators Will Petition Directors to Have the Olinda Ditch Piped

ANAHEIM, Dec. 8.—A regular meeting of the board of directors of the A.U.W. Co. was held Dec. 3. Attorney Melrose submitted a proposed agreement to be made between the Anaheim Union Water Company, party of the first part, and Louis W. Bushard, party of the second part, whereby, in consideration of the conveyance by the said party of the second part, to the party of the first part, of a certain strip of land known as a private alley, in lot 1, block E, vineyard lot D3, city of Anaheim, the said party of the first part agrees that if the city of Anaheim shall hereafter compel the opening of said alley, and shall designate an assessment district which shall be liable for the costs and expenses of such opening, and if said district shall embrace any property then owned by said party of the second part, in said block E, in vineyard lot D3, the said party of the first part

will pay all assessments levied or assessed upon said property in said block, or said party of the first part for said purpose.

On motion of Porter, seconded by Hale, the agreement was adopted and the president and secretary were instructed to execute the same on behalf of the company.

J. A. Smith, E. Gage and others appeared before the board in regard to their request to have the Olinda ditch piped. They were informed of the requirement and probable cost, and the parties were requested to draw up a petition and to state therein the amount they would agree to contribute towards the cost of construction, and to submit the petition at a subsequent meeting of the board.

The ditch committee was given power to act in regard to the matter of preventing overflow water from damaging the cement pipe, and washing into the county road, at Wintler's corner.

Application of E. F. Kellogg for the purchase of ten barrels of cement was on motion granted.

A communication was received from Engineer Finkle of Los Angeles, regarding proposed methods of crossing the A.U.W. Co. canal at Yorba Linda with a 20 inch steel pipe line to be constructed by the Yorba Linda Water company. The matter was referred to the superintendent to consult with Engineer Finkle, and if a satisfactory crossing is decided upon, to request the attorney to draw up a proper contract to be submitted to the board.

LOS ANGELES PRODUCE MARKET

The market was very quiet yesterday morning as far as absolutely local business was concerned. Only large shipments of stock out of town kept forces in various of the large commission houses very busy. There were few if any changes in the prices of fresh commodities, and arrivals of fruit were at an absolute halt. Not even a car of apples was reported in. The northern packers have moved about all stock out of their hands and are sitting back to enjoy the profits of the season and wait for the next one to arrive. The past season has been profitable, with apples selling at fractionally better prices this year than last, and all fruit moving fast. Here in town the movement of apples

out of storage has been much more rapid than anticipated by the cold storage house managers and the commission merchants. The demand has been steady and at good figures, so that all of the apple dealers are feeling elated at the outlook for a fine finish of the season. The highly colored fruit just at present is moving better than the Permain, Pippins or Bellefleurs.

Egg prices were down a cent. The demand was fair. Case count were quoted at 41 cents and candied at 45 cents. In San Francisco the quotation on candied yesterday was 42½ cents, on which account the local market showed its weakness. Receipts of eggs were 81 cases.

Butter arrivals were 28,280 pounds. Considerable more interest was shown in butter exhibited on the exchange than in the butter offered for sale. The market was a trifle weak on reports of a 28-cent quotation in Chicago, 31 cents in New York and 34½ cents in San Francisco.

Cheese receipts were 2305 pounds. The demand for cheese was limited to northern fresh and two eastern varieties.

Potato arrivals were 4349 sacks. The call for spuds was very good and the Oregon and northern varieties selling last week at \$4.65 for delivery at this time are not obtainable at less than \$1.75 at the present. Even Highlands were held at \$1.70 in large lots.

There were no onions received. The demand for beans was light, pinks being the only variety offered. None was reported in. The call for sweets was good. Only 88 sacks were reported in and the price was quoted up to \$2.50.

JEWELERS

Santa Ana

Both are anxious to make a better showing than was made last Saturday when a double headed defeat was met at Orange. The boys' team is being reorganized. Oerly is being tried out at guard and the getting in to the game of Manager Lantz may make further change. W. Reeves, who played the star game at guard for Santa Ana last Saturday seems to be about the only man on the team sure of his job.

The coming of a new student from a northern high school, where he played forward on the champion team of the north part of the state looks as though there would be a new shift in the line up. Last evening was his first appearance on the local court. His size and movement mark him as a basketball player of high order. It goes without saying that before a new man can get a place on the team from an old player he must earn it.

A practice game was played yesterday afternoon by the all-stars, being a bunch of star football men. Their playing marked them as being stronger in football than in basketball. It isn't a question as to whether they can "come back," but rather can they ever get there. A lot of real fun was had. The regulars won, of course. The all-stars want another game next Wednesday, believing they can make a better showing and at least furnish more fun.

TWICE-TOLD TESTIMONY

Santa Ana People Are Doing All They Can for Fellow Sufferers

Santa Ana testimony has been published to prove the merit of Doan's Kidney Pills to others in Santa Ana who suffer from bad backs and kidney ills. Last any sufferer doubt that the cures made by Doan's Kidney Pills are thorough and lasting, we produce confirmed proof—statements from Santa Ana people saying that the cures they told of years ago were permanent. Here's a Santa Ana case:

Mrs. J. Williams Sackman, 1076 W. Fourth St., Santa Ana, Cal., says: "In March, 1907, a relative vouched for the value of Doan's Kidney Pills, as was proven by their use in her case. At this time, two and a half years later, I can say that this party still holds a high opinion of Doan's Kidney Pills and always speaks in their favor when the opportunity occurs. Doan's Kidney Pills proved of wonderful benefit in this case, relieving pains in the back and restoring strength and energy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
